

Instead of a logo at the bottom its going to become the favicon and be at the top of the nav bar (the favicon is also not going to be an oval, it will be an image of David Daniels profile)

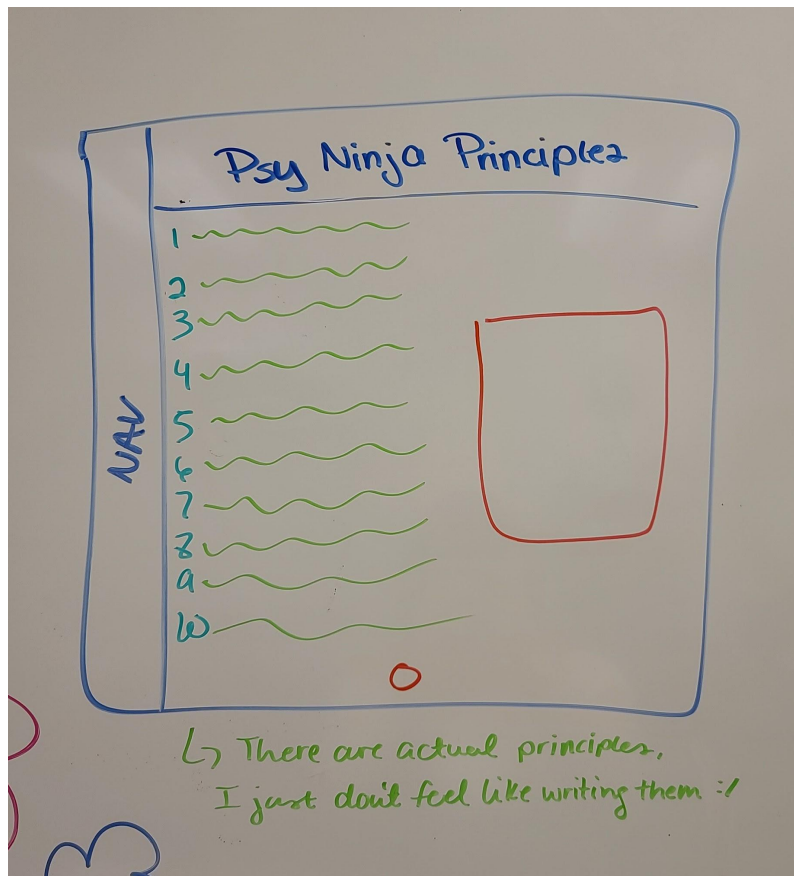

Professor profile will also link to his own personal website.

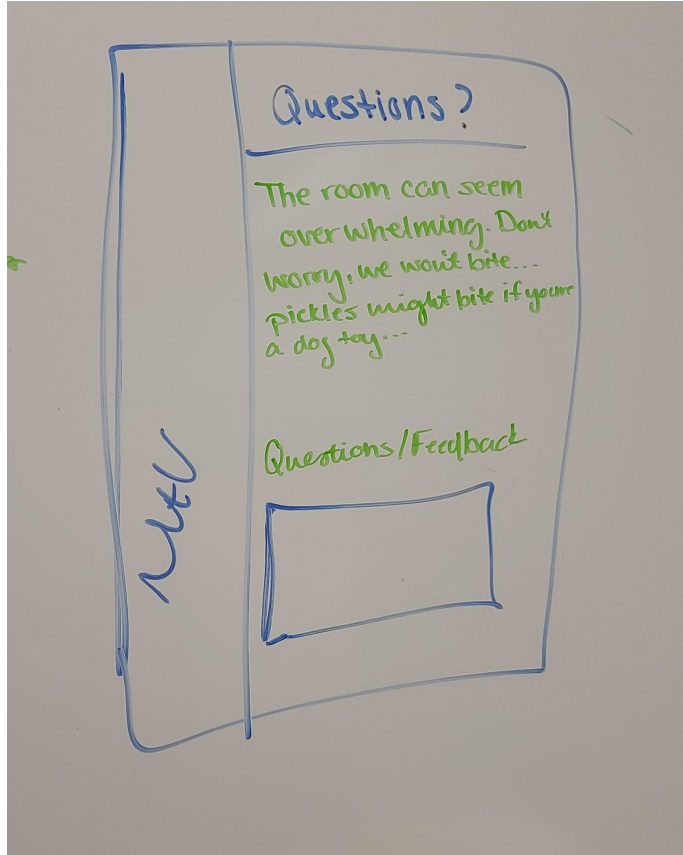

<http://www.dbdaniel.com/>

These two will be combined

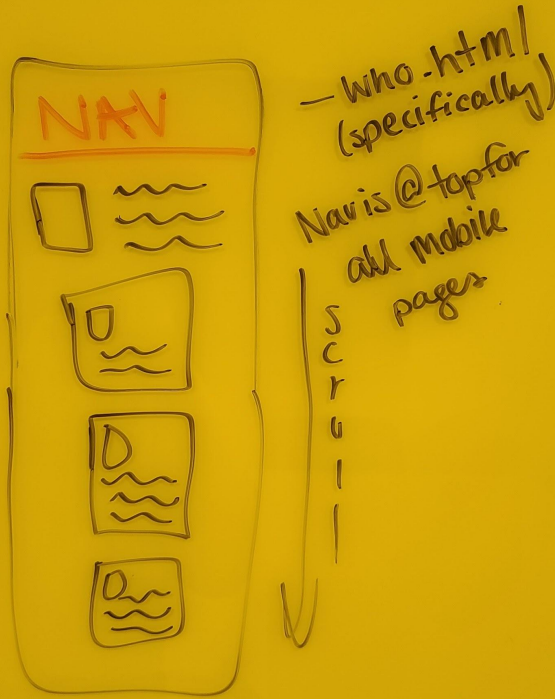

Each principle (list item) will have a little bit of text explaining.

This will be our form

(pickles is the professors service dog btw)

This is for our mobile design.
We will have the nav bar moved to the top of the page and for the who file specifically, the profiles will be turned into a column direction for easier viewing.

Style Ideas:

Color scheme:

#1B1B3A

#A7B0CA

#D5DCF9

#725E54

#443627

Fonts:

For the Headers: 'Segoe UI', Tahoma, Geneva, Verdana, sans-serif;

For everything else: "Lucida Console", "Courier New", monospace

We will utilize flexbox for some pf the layout of our pages.
